PROFESSIONAL SUMMARY

I create impact through code by building hands-on projects inspired by real-world causes and solving them with clarity, precision, and efficiency. Skilled in React, modern JavaScript (ES6+), Express.js, and MongoDB. I'm always learning, adapting to build smarter and faster with AI.

PPROJECTS

• T & G – An E-Commerce platform (MERN)

Tech : React.js, Tailwind CSS, REST API, Express, Multer, Node.js, Express.js, MongoDB, Cloudinary, Nodemailer.

- Built a full-stack e-commerce app with authentication, OTP/email verification, and secure APIs.
- Developed an admin panel for managing products, users, and orders.
- Implemented a schema-based structure for scalable backend data modeling and clean API integration.
- Deployed the application on Vercel and alwaysdata.net ensuring production stability.

• DigiFlow – Full Stack Queue & Token Management Platform

Tech : React.js, REST API, Node.js, Express.js, MongoDB, Tailwind CSS, Socket.io, jwt, js-cookies.

- Built a digital token and queue management platform with secure authentication and role-based access.
- Implemented QR-based token generation and real-time queue tracking features.
- Developed responsive dashboards and scalable REST APIs using MERN stack..
- Enhanced UX with modern UI design, toast notifications, and responsive layouts using Tailwind CSS.

• MediFlow – Hospital Management System

Tech : React.js, Tailwind CSS, Axios

- Built a hospital management system with secure authentication and role-based access control.
- Developed patient, appointment, and staff management features with Redux Toolkit state management.
- Implemented scalable REST APIs and MongoDB schemas for efficient hospital data handling.
- Enhanced UX with responsive UI, reusable components, and modern Tailwind CSS layouts.

TECHNICAL SKILLS

• Frontend:

JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design, Component-based Architecture, Redux, Toolkit.

• Backend & Databases:

Node.js, Express.js, MongoDB, REST APIs, JSON, JWT Authentication, Multer, Cloudinary, Mongoose, Relationships in MongoDB.

• Tools & Platforms:

Git, GitHub, VS Code, Postman, Netlify, Vercel, Render, alwaydata, Chrome DevTools.

• Other: DSA (learning)

EDUCATION

Full Stack Development Program – Dice Academy, Delhi
